Operating Instructions

- **Charging and supplying power for mobile phones/digital devices**

- For charging, please connect your mobile phone/digital device to the USB output of MINI CHARGE.
- Now mobile phone/digital device begins to charge.
- When your mobile phone/digital device has been sufficiently charged, remove it from the MINI CHARGE.
- The MINI CHARGE will switch off automatically.

- **Charging the MINI CHARGE**

- Please connect the USB end of the Micro USB cable to a computer or to a USB charger. Max. 2A.
- Then connect the other end to the DC Input (Micro USB) of MINI CHARGE.
- Now MINI CHARGE charging starts.

- **Checking power capacity**

Press the function button to check the battery power capacity.

The lights indicate the power capacity, with one light indicating 25% capacity. If the lights are not lit while you press the button, please charge the MINI CHARGE.

Instructions

- Please read the user manual carefully before initial use.
- Full charge the MINI CHARGE before using. If the MINI CHARGE will not be used for a while then charge it to its full capacity. Charge it every 3 - 4 months to maximize its life and performance.
- Do not expose the product to heat sources or fire as the battery in it may explode.
- Do not expose the product to moisture or rain.
- Do not keep jewellery, keys or other metal objects near the product to avoid damage to the input or output terminals.
- Do not contact the product with metal or sharp tools, do not drop it and do not put any heavy items on it.
- Do not attempt to disassemble, repair or change the battery pack as this would cause it to overheat, burn or explode.
- If the product emits an unusual odour, becomes abnormally hot, changes in colour or shape, please stop using it immediately.
- Do not insert or pull out the plug forcibly as this may cause damage to the product.
- Do not use strong chemicals or detergents to clean the product.
- If you use a poor quality charger and cause any damage, our company can not take any responsibility.
